

Need to ship your goods to the UK? We take care of it!

Great Britain is no longer part of the European Union and since January 1st 2021 goods are subject to customs controls and practices. Duties are not being applied, as agreed in the last-minute Trade Agreement between European Union and UK signed on Christmas Eve.

Ambrogio Intermodal offers its expertise to provide you with a **door-to-door transportation service from European Union countries to UK and Ireland.**

Our road-rail-ferry intermodal service allows to guarantee the continuity of your commercial flows, without the risk of shutdowns. We have over 30 years' experience in the UK market and even in this post-Brexit scenario we have the expertise to handle all new customs requirements and the shipment of large traffic volumes.

Export customs declarations can be managed directly by you or by Ambrogio Intermodal. If you choose to entrust us with the management of customs declarations, we will contact you to obtain the necessary information for the production of customs documents. Our team of experts regularly schedules shipments to UK every day. No customs declarations are required to export goods to Ireland (EU) and Northern Ireland (UK).

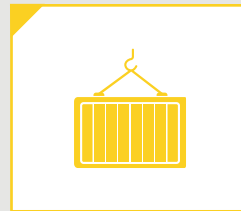

Type of service

Intermodal door-to-door transport

Loading

Full truck loads
